

M.R.F. Supervisor's Monthly Report April 6th, 2012

Things are picking up at the M.R.F. Baxter and I did the following for the month of March:

Accepting incoming rubbish
Working on the demo area
Crushing glass
Sorting the scrap metal
Baling recyclables
Working on the exchange
Sorting recyclables
Processing old paint
Working on the Haz-Mat
Working on the equipment
Cleaning the shop
Running the nail sweep
Grading the driveway
Working on electronics
Filing D.N.R. reports
Answering numerous phone calls
And daily routine

Additional info:

1. I took a load of clean copper pipe to Chicago Iron. The total was 447 lbs. We should be getting around \$1500 for the load. The chop saw has paid off.
2. The proposal you received is for a wire stripper. I really do believe that it will pay for itself in a couple of years. Please seriously consider this purchase in the near future.
3. Carey and I will be attending safety class on the 17th we will be in menominee returning on the 18th. Just a reminder.

Respectfully Submitted,

Ted Pallas supervisor M.R.F,
